

Međunarodna gostovanja

2021. godinu

- Nikola Ković-Blaž "Algebraic topology invariants in the coarse shape", *preprints*, (Workshop on Graphs, Topology and Topological Groups WGTTG 2021 (Dubai), Cape Town, International Republics, online, 2021.)
- Nikola Ković-Blaž "Alternative approach to the coarse shape groups", *preprints*, (JSTN INTERNATIONAL CONFERENCE ON MATHEMATICAL SCIENCES (JMS 2021) (Dubai), Istanbul, Turkey, Spring 2021.)

2019. godinu

- Tigris Yalçin "Groups $\mathcal{A}_n = \mathcal{B}_n$ in construction of digraphs and block designs", *preprints*, (36th Moroccan International Conference on Graph Theory, Biol, Morocco, Spring 2019)
- Boris Jakubec "Singular quartic and quintic curves: Their equations over imaginary quadratic fields", *preprints*, (Representation Theory XVI, Belgrade, Spring 2019)
- Gordon Rushchitsky "On realization of Heisenberg-Virasoro MDA and Gelfand-Wichmann", *preprints*, (Recent algebraic and related topics, Chengdu, SB Korea, Autumn 2019)
- Stjepa Blumir "Deformations of a (2, 0)-tuple", *preprints*, (Representation Theory XVI, Belgrade, Spring 2019)
- Gordon Rushchitsky "Free field realizations of twisted Heisenberg-Virasoro algebras at level zero and its applications", *preprints*, (Algebra and geometry seminar, La Sapienza, Università di Roma, online 2019)
- Nikola Ković-Blaž "Minimization of the coarse shape groups", *preprints*, (The Canary Topology Colloquium, University of Worcester, England, Spring 2019)
- Nikola Ković-Blaž "Classification of the coarse shape in the algebraic topology", *preprints*, (Geometric Topology – Celebrating the Year of Mathematics in Poland, Warsaw, Poland, spring 2019)
- Milica Klačić-Bekić "Structural analysis and their connections with grammars and formal languages", *preprints*, (Faculty of Mechanical Engineering and Computer Science, Bielefeld-Biele, Bielefeld, Summer 2019)
- Ben Upton "Introductory Statistics I & II", *preprints*, (MSM's Summer School on Data Science (2019-2020), Split, Croatia, spring 2019)

2018. godinu

- Ivan Ković-Jurić "Integrable Systems and Bacterization Problem in Loop Groups", *preprints*, (Joint Institute of Technology, Turku, summer 2018.)
- Gordon Rushchitsky "Some applications of series: Algebraic representation theory of infinite-dimensional Lie algebras", *preprints*, (JIMMSA, Kijev, Ukraine, Autumn 2018)
- Goran Eting "A surprising example for topological entropy of unimodal functions", *preprints*, (International Conference on Topology and its Applications, Nafplion, Greece, spring 2018.)
- Nikola Ković-Blaž "Topologization of the coarse shape groups", *preprints*, (International Conference on Topology and its Applications, Nafplion, Greece, spring 2018.)
- Andrejane Čuček "Intersection of a fine field layer with an elastic plate", *preprints*, (High Applied Mathematics Day 2018, Split, Spring 2018.)
